Iliad announces it entered in exclusive negotiations with Numericable SFR with a view to purchasing a portfolio of assets in connection with the offer submitted by Altice for the acquisition of Bouygues Telecom by Numericable SFR. This transaction is subject to negotiation of definitive agreements and acceptance of the offer by Bouygues.

About Iliad

Iliad is the parent company of Free, the inventor of the Freebox, the first multiservice box on ADSL. Free is behind numerous innovations in the broadband access segment (VoIP, IPTV, flat-rate calling plans to multiple destinations, etc.). Free provides straightforward and innovative offerings at the best prices. At the end of 2010, Free introduced the Freebox Revolution, the 6th generation of Freebox units that notably includes an NAS and a Blu-Ray™ drive. Free was the first operator to include calls from landlines to mobile phones in its offerings and also calls to French overseas departments (DOM). Since January 2012, Free has brought mobile phone usage within everyone's reach with straightforward, no-commitment offerings at very attractive prices. In March 2015, Free launched the Freebox mini 4K. Free has over 5.9 million broadband subscribers and more than 10.5 million mobile subscribers (as at March 31, 2015).
