Additional information on the series, calendar, methodology

Telecommunications equipment component is increasing sharply (+9.4%, up from +9.2% in July).

Non-financial corporations include all companies whose main activity is the production of goods and non-

financial services, excluding sole proprietorships and unincorporated partnerships.

CRÉDITS AUX SOCIÉTÉS NON FINANCIÈRES EN 2022 - 10 pages in July

Calculations are made with the aim to give the best possible image of the evolution of the lending activity:

- Real estate, available under [Apple](#) and [Android](#)

- Loans that have been securitized or sold by credit institutions are considered as remaining in their books

- Accounting changes that are not reflecting economic transactions, in particular write-offs/write-downs, are

eliminated

The impact of statistical modifications in the scope of the MFI sector (e.g. the reclassification of an entity

from the non-financial corporations sector to the government sector) is also eliminated

- As FX hedges are unknown, loans in foreign currencies are however taken into account at their face value

in Euros at the end of the month
