

Paris, 7 November 2016, 5.35 p.m. – Assystem S.A. (ISIN code: FR0000074148 – ASY)

## Assystem acquires BATIR Group

Assystem has just acquired the entire capital of BATIR Group, a French engineering company which, through its subsidiaries BATIR Conseils and BATIR Synthèse, specialises in nuclear civil engineering and technical and architectural synthesis using BIM (Building Information Modelling).

This acquisition will broaden the construction engineering offering of Assystem Energy & Infrastructure (E&I) for complex, industrial and nuclear buildings and will also help promote the use of BIM.

BATIR Group – which currently generates €3 million in annual revenue – is an engineering consulting firm of strong repute within the French nuclear industry and enjoys a well-established position in the growth markets for BIM and digital mock-ups. Its direct clients include both public organisations and private companies, such as CEA, Areva and national and local government agencies, and it also takes part in projects for major public works groups.

BATIR Group currently has 30 employees, including its founders Albane Levieux and Christophe Fournier, who will continue to work on developing the company's activities within Assystem E&I.

### About Assystem:

Assystem is an international group specialised in engineering. As a key participant in the industry for 50 years, Assystem supports its clients in developing their products and managing their capital expenditure throughout the product life cycle. Assystem employs some 12,200 people worldwide and generated €908 million in revenue in 2015. Assystem S.A. is listed on Euronext Paris.
