The average interest rates on bank deposits decreases in July at 0.41%				
Average interest rates on bank deposits	0.47	0.44	0.43	0.41
In July 2021, the average interest rate on bank deposits decreases from 0.43% to 0.41%. This variation is due to a lower rate on overnight deposits for both households and non-financial companies, induced by the modification of overnight deposits regarding the rate of consignment deposits and assimilated deposits under the custody of a public financial institution. The overnight deposits rate for these specific funds, such as notary repositories or rents received by social housing companies, was formerly 0.75% and is now 0.30%. On 31th July 2021, the share of the deposits in the scope of this modified regulation is less than 2% for the households and the non-financial companies.
