* A positive (negative) balance of opinion corresponds to a rise (fall) in the evolution of activity. Balances of opinion are considered to be trending upwards but only very moderately. Business leaders reported a further sharp rise in quote prices. For further details, see [sectoral level information](#), the [methodology](#), the [publications calendar](#), the [contacts](#) and all [statistics](#) on our [research](#) published by the [Banque de France](#) for most market services. [WEBSTAT Banque de France](#)

The balance of opinion on the cash position remains at a high level, above its long-term average. Order books were held slightly higher than in November. Activity is expected to increase again in November.

Business leaders expect activity to improve in November.
