STANCO - November 2021 with of credit reached +15.7% for total loans, +32.4% for treasury and +15.0%

Calculations are made with the aim to give the best possible image of the evolution of the lending activity:

- Loans to non-financial corporations 4.7 4.9 12.5 12.1 12.9

- Accounting changes that are not reflecting economic transactions, in particular write-offs/write-downs, are

Treasury 319 -1.8 -2.4 -2.4 30.2 27.0 32.4

- The impact of statistical modifications in the scope of the MFI sector (e.g. the reclassification of an entity

from the non-financial corporations sector to the government sector) is also eliminated

- As FX hedges are unknown, loans in foreign currencies are however taken into account at their face value in Euros at the end of the month

The two-year growth rate is the ratio of the outstanding amount in month m to the outstanding amount in month m-24. Therefore this rate is not annualized.
