Additional information: [calendar](#), [methodology](#)

Telecommunications loans to non-financial corporations remains strong: 32.0% in July, down from 32.6% in June. Non-financial corporations include all companies whose main activity is the production of goods and non-ferrous metals. All statistical time series published by the Banque de France can be accessed on [Webstat Banque de France](#)

Calculations are made with the aim to give the best possible image of the evolution of the lending activity. Real estate, the annual growth rate of credit to non-financial corporations stands at 12.6%, up from 12.2% in June.

- Loans that have been securitized or sold by credit institutions are considered as remaining in their books

- Accounting changes that are not reflecting economic transactions, in particular write-offs/write-downs, are

dominated by

- The impact of statistical modifications in the scope of the MFI sector (e.g. the reclassification of an entity from the non-financial corporations sector to the government sector) is also eliminated

- As FX hedges are unknown, loans in foreign currencies are however taken into account at their face value in Euros at the end of the month
