

Summary proceedings ruling regarding the tender for the renewal of the ANTAI contract (the "Radar" contract)

Bezons, November 27, 2015

As previously announced, the Group has appealed against the French administration's intention not to renew with Worldline the automated traffic offence processing contract (which had been notified at the end of October 2015).

The judge, ruling in summary proceedings, has just notified its decision to overrule Worldline's appeal. This decision will have no impact in 2015 and should have a limited OMDA impact in 2016 at Worldline level, given the necessary anticipated extension and transition related activities.

Worldline reserves all rights that may exist to assert its rights in this matter, including to appeal the judge's decision as well as to challenge the French administration's public tender.
