Mr Daniel AUGEREAU
Chairman and CEO

Through its SYNERGIE Personal Deutschland subsidiary, the SYNERGIE group recently signed an agreement for the acquisition of 100% of the shares of a temporary employment company, with integration scheduled for early 2016. The merger is subject to prior authorisation from the German authorities.

The target company is expected to generate revenue of around €25 million this year and has around 15 offices located mainly in Bavaria, which will allow SYNERGIE to double the scale of its operations in southern Germany's most economically dynamic *Länder*.

The SYNERGIE group thus consolidates its position as Europe's fifth largest human resources management group.
